

PlomBOX Project: Media Kit

Release: May 2020. Please check the official web-page (<http://plombox.org/media.php>) for updates.

How should the project be mentioned?

PlomBOX: A Device for Open Source Metrology to Fight Lead Contamination in Drinking Water. Funded by The Engineering and Physical Sciences Research Council (EPSRC). Ref.: EP/T015586/1

Which institutions are involved in this project?

Lead University: Royal Holloway and Bedford New College, University of London (UK).

Research Institutions: Facultad de Ciencias Exactas y Naturales, Universidad de Buenos Aires (ARG), Comisión Nacional de Energía Atómica (ARG), Universidad Nacional Autónoma de México (MEX), Science and Technology Facilities Council, Boulby Underground Laboratory (UK).

How the PlomBOX Project is supported?

The PlomBOX Project is supported by a grant from the Global Challenges Research Fund (GCRF) of the UK Research and Innovation (UKRI), the UK institution in charge of coordinating research in the United-Kingdom. The GCRF is a specific fund to address challenges faced by developing countries.
